James Judge Infotech, LLC

1/2020 to Present

- **Experian Consumer Services**
Identity Management Solutions (Symfony 3.4, 4.0)
Globalization (XLT, Translations)
Docker / AWS Deployment
Linux Shell Scripting
Agile Development
Jenkins, Jira, Slack
- **IBM**
Datacenter hardware management software (PHP 7.4,)
MySQL Migrations
Database Administration
- **The Video Voyager**
Drupal PHP CMS
Live video streaming
Paypal API integration
AWS Services Utilized and Managed: IVS, S3, ECS SMS and Workmail
- **Bee Natural Acres**
Magento E-Commerce Site
AWS Management – EC2, Route 53, Workmail

FultonFishMarket.com (PHP Development)

8/2019 to 10/2019

- PHP development for e-commerce platform utilizing Magento
- PHP development using Zend Framework on warehouse management system
- AWS Management
- Automated testing with Selenium

USESI.com (PHP Development Lead)

11/2018 to 1/2019

- PHP development for e-commerce platform utilizing Magento (built in Symfony)
- Front-end development using jQuery, Angular, HTML5 and CSS
- Subject Matter Expert for data feeds
- Consuming feeds via AJAX

- SQL Server and MySQL Database – researching ways to utilize NoSQL for storage

Apparel Business Systems (Lead PHP Developer)

1/2017 to 10/2018

- PHP, IBM DB/2, Apache, ExtJs and jQuery
- Source control using SVN
- Created API's for shipping
- Created and leveraged API's for Credit Card Processing
- Drupal 8 CMS Development
- Worked on Mobile App (HTML5) for iPad
- Perl Scripting

Solid Innovations, LLC (Startup, partial remote)

7/2016 to 12/2016

- RESTful API development, Drupal 8 for content display and management, Symfony, MySQL, Apache, Amazon AWS Management
- Linux and Raspberry Pi guru: DNS Masq, HostAPD, HAProxy, RabbitMQ and OctoPrint
- Python Application Development including 3d printer control and communication (Flask / Django)
- NodeJS server development including Video Streaming, Encoding and Distribution
- MySQL Database development and management including Migration to Amazon RDS
- Amazon AWS EC2 Instance creation and management
- Open source package integration specialist
- BitBucket / Git / Source Control and management
- Automated testing with Selenium

RevHealth (Contract, Development Lead)

1/2016 to 3/2016

- Drupal 8 CMS
- Utilizing Node.JS on the back-end and JQuery/CSS on the front end
- Managed deployments using Amazon OpsWorks
- Database Development using Amazon DynamoDB
- DNS Management using Amazon Route53

- Developed websites and Kiosk Displays for healthcare companies

Nickelfish (Contract)

6/2015 to 8/2015

- 3 Month Contract to catch up on www.coldwellbanker.com project that was behind schedule.
- Utilizing application framework KOI, Object Oriented PHP and MySQL
- Implementing front ends in jQuery, Angular, HTML5, Twig Templates, JSON and CSS3
- Drupal 8 module and template development for customized data views and data handling
- Experience creating distributable development environments using Vagrant
- Performance review including system and database changes to enhance site performance
- Integrated site authentication with Facebook sign-on

JamesJudge.info, LLC (Self-Employed)

**3/2013 to
Present**

- Providing support and development for applications in PHP, Perl and ColdFusion
- Utilizing application frameworks including Drupal 7 CMS (and various Drupal Modules), CodeIgniter, FuseBox, Cake and Zend
- Cold Fusion Custom Tag Creation
- jQuery and jQueryUI User Interface Design
- Microsoft SQL Server and Management, Oracle PL/SQL MySQL Database
- Shell scripting, Perl scripting, Python Scripting
- Automation testing with Selenium
- Unit testing with PHPUnit

Kaplan University (Contract, Remote)

**10/2014 to
2/2015**

- PHP Development Consultant utilizing Zend Framework in a LAMP environment and various front-end frameworks such as jQuery, Angular and Smarty
- High level object oriented programming on both front-end and back end
- 100% remote Agile Scrum team
- Git, SVN
- Automated testing with Selenium

University of Minnesota (Contract, PHP Lead)

**6/2014 to
10/2014**

- Object Oriented Perl development, jQuery, Git
- Oracle database server
- Apache management
- Single Sign-on using Shibboleth

Universal Printing Company (One year contract, On-site.) 2/2013 to 2/2014

- Object Oriented PHP Development on internal control systems
- Object Oriented Perl Development on internal control systems
- Invoice Management System (Perl, HTML, Javascript, MySQL)
- Job process flow management system. (PHP / Perl, HTML, Javascript, MySQL)

The Louis Berger Group (Development Lead, Resigned for lack of adoption of current tech) 6/2012 to 12/2012

- Lead a team of 3 developers and a part time graphic designer
- Senior Level PHP Developer working on a team with one other senior level and two junior level developers utilizing Object Oriented PHP to manage internal systems for accounting, HR and a general intranet.
- Evaluate, tested, recommended, implemented and integrated with the company's custom framework a search engine to search through resumes for the HR department (PHP, HTML, Javascript, MySQL)

- Worked on enhancements on many internal control system forms and databases. (PHP, HTML, Javascript, MySQL)
- Worked with and made additions to custom framework using object oriented PHP 5.x and MySQL. Upgrades including a new class inheritance that upgraded view of html fields with an option to automatically highlight specific terms.

Tri-Power Consulting Services, LLC. 10/2010 to 5/2012 (Contract, Patents available for review, Development Lead)

- Spearheaded application development and managed a contracted graphic designer
- Developed website and back-end database for job placement (PHP/MySQL)
- Developed import/export routines to take data from suppliers and bring it into job placement site. (PHP/MySQL)
- Developed custom online signature capture system (PHP, Flash, MySQL)
- Developed employee time and expense tracking system (PHP/MS SQL)
- Developed online device management system for proprietary internet connected devices (LAMP - RHEL 5)
- Developed communications protocol between proprietary devices and RedHat Linux server
- Developed custom TCP listener in NodeJS to accept communication from proprietary devices.
- Patent number available upon request

Short-Term Projects 02/2009 to 10/2010

- Lead on all projects working with various graphic designers and other contracted developers
- Website created for ImmuneXL Dietary Supplements

- Website Created for Bee-Alive Health and Beauty Projects
- Website Modifications for RampUp Technologies
- Website Modifications for Buzztxt Marketing Services
- Website Modifications for HookupFeed Marketing Services
- Database creation and modification
- Android Enabled (Google) Cell Phone Application Development
- Coldfusion Database Applications for Xcitek (Calculators and information look-ups)
- .Net, AJAX, Classic ASP, Coldfusion, Java and PHP
- Windows Server and Linux Application Development

Franklin Credit Management Corp.,

08/2008 to 02/2009

(Contract, Laid off - Mortgage industry crash)

- Project lead working with graphics, database and development assets.
- Hired by Transcend to work on CRM systems and Process Flow Management Systems using ColdFusion MX7 and 8 for Franklin Credit Management Company.
- Supported, maintained, and upgraded classic ASP applications to Coldfusion.
- Upgraded old Visual Basic Script tasks to ColdFusion scheduled tasks.
- Worked with vendors APIs to develop transfer and communication links replacing old FTP transfer systems with web services.
- Worked as project lead directing two developers.
- Wrote custom SQL Server stored proceduresmr MS SQL and Oracle PL/SQL
- Taught database programmers to use SQL Server Integration Services packages to replace old DTS Packages after upgrading from SQL 2000 to 2005.
- Laid off due to mortgage industry crash

AIG Network, Cedar Knolls, NJ

05/2007 to 07/2008

(Permenant, resigned to pursue consulting)

- Developed web based applications and web enabled applications in Classic ASP, ASP.Net, Visual Basic 6, SQL Server Integration Services, VB.Net and C#.Net.
- Managed database servers.
- Developed automated systems that connect to feeds from doctor's offices and feeds from major insurance companies and process the data communications between the two in a combination of VB .Net and C# .Net.
- Managed and maintained large scale web based application for insurance claims processing and tracking in a combination of VB .Net and Classic ASP.
- Managed and maintained C# .Net digital document management system.
- Wrote API DLLs for clients to easily interface with us via web services and ftp/http requests

Short Term Projects

05/2006 to 05/2007

- Network, Database, Website, and Software Development Consulting. Worked with major banking firms as well as small businesses.
- Financial software for companies in the financial district of Manhattan using Cold Fusion with custom Java CFX Tags and a SQL back end such as cost basis calculation software and

- a class action search database
- Data Integration projects combining data from a legacy system (PDP 11 using software written in BASIC) with data from a FoxPro data warehouse.
- Template driven high-level e-commerce packages using ASP and CSS
- Dynamic mass mailing applications in VB .Net
- Web site management desktop software in VB .Net
- More information available upon request.

HSH Associates, Pompton Plains, NJ
(Perm, Resigned to pursue consulting)

06/2003 to 05/2006

- Upon completion of my year on scholarship at Valley Forge I Developed windows software packages as well as internet based applications for HSH.
- Graphic Design for websites and applications
- Programming in languages such as Perl, ASP, Visual Basic 6, Visual Basic .Net, Visual C# .Net, Cold Fusion, Microsoft Visual Foxpro, HTML, Javascript, VBScript
- Automation of basic daily tasks using VBScript.
- Financial calculators (APR, Amortization, Credit Score, etc)
- Mortgage data tracking systems and data delivery systems
- Server management, Network architecture and management
- .Net Web Services

Simple Solutions, Help Desk, Kinnelon, NJ

05/2000 to 06/2002

- Webmaster and development manager
- Managed, coded, and maintained 50+ web hosting client' websites.
- Developed early e-commerce websites
- Developed early web community sites
- Managed and maintained Windows NT and Unix/Linux web servers, mail servers, DNS servers and dial up access servers.
- Computer building and repair
- Computer networking

HSH Associates, Butler, NJ

09/1997 to 03/2000

- Web Design, Javascript, Perl, ASP, and Visual Foxpro Development.
- Unix and NT network integration assistant.
- Worked directly with CEOs and Presidents of hundreds of major mortgage banks to create web presences for them.
